SPORTS AND PASTIMES.

Victoria Captures the Lion's Share of Prizes in Yesterday's Meeting.

Hewartson Takes the Road Race—Good Friday and Easter Monday Events.

It was unfortunate, after the Rugby football club had worked so hard to make their sports a success, that the state of the weather yesterday should have prevented a large attendance of spectators. However, those who went out to the Caledonia Park had no reason to complain. The various events were well contested; there was no lack of entries; and the presence among the competitors of representatives of outside cities gave zest to the races.

The judges were Messrs. F. B. Gregory and W. A. Ward; Mr. C. P. Wolley was referee; Capt. Barnes, R.M.A., officiated as starter; Mr. B. J. Perry kept time; and Messrs. W. E. Fisher, G. L. Sidey and F. Wollaston were the clerks of the course.

The first event was

100 YARDS (CLUB).

Entries—T. E. Booley, C. G. Skene, J. S. Byrn, J. F. Foulkes and H. B. Haines.

The men got away well together; then Byrn forged to the front and breasted the tape a winner, with Foulkes a yard and a half behind, the rest of the field bunched five feet behind. Time—10⅗ seconds.

PLACE KICK (OPEN).

Entries—W. B. Goodwin (Seattle A. C.), H. A Goward (Wanderers), J. F. Foulkes (Victoria Rugby F. C.), and E. Larsen Blanck (Seattle A. C.).

The strong southwest wind made the kicking very uncertain. Goodwin of Seattle, formerly of the Yale University team, was the first to fail; then Goward and Foulkes dropped out, and Blanck won with a very pretty kick.

CLUB QUARTER.

Entries—J. S. Byrn, F. Macrae, T. E. Pooley, C. G. Skene, J. F. Foulkes and H. B. Haines.

Pooley went to the front at a pace that was too hot to last, Byrn and Foulkes following close up in the order named. On the home stretch Byrn by a nice spurt passed Pooley, who having run himself out dropped behind Foulkes, who came in second. The time, for a grass track, was very good—59 2-5 seconds.

SCHOOLBOYS' HANDICAP.

There were four entries for this, and the distance was 220 yards. Young H. Wilson of Victoria College won, but Blanck of Seattle ran him very close and came in second. Time—26 seconds.

100 YARDS (OPEN).

Entries—T. A. F. Ziegler (Port Blakely); G. Partridge (Wanderers); J. G. Miller (James Bay Lacrosse Club); H. H. Connor (Seattle A. C.); J. F. Foulkes (Victoria Rugby F. C.); J. A. Bland (J. B. L. C); T. E. Pooley (V. S. A. C.); G. Wilson (Victoria College); and S. F. Morley (Victoria C. C.).

Connor, Partridge and Foulkes came down the track at a fine pace in the order named; then Foulkes with a great burst passed ahead, though at first it seemed as if Connor had won, so close were he and Foulkes. The time was wonderfully good—10 2-5 seconds.

DROP KICK (OPEN).

Entries—W. B. Goodwin (Seattle A.C.); F. Macrae (Victoria R.F.C.); E. L. Blanck (Seattle A.C); H. Petticrew (Victoria R F.C.); H. F. M. Jones (Victoria R.F.C.); J. R. G. Bullen (Victoria R F.C.); C. G. Skene (Victoria R F.C.); and Q. D. H. Wardeu (Victoria R.F.C.)

Warden won with the splendid kick of 166 feet 5½ inches; Blanck, 2, 160 feet 5 inches.

THROWING LACROSSE BALL.

Entries—H. E. Morton, G. A. Coldwell and C. L. Cullin.

Morton made a fine throw of 145 yards 6 inches; Cullin coming second with 114 yards.

ONE MILE (CLUB.)

Entries—F. J. Daniels, D. C. Tuck, W. A. Cornwall, P. R. Daniels, J. F. Foulkes, E. A. C. Gibson and H. B. Haines.

F. J. Daniels, a very pretty runner, made the pace from the start, with Cornwall second and Gibson third. The others were out of it and Daniels won, Gibson, who passed Cornwall on the home stretch, taking second. Time—5 15 2 5

QUARTER MILE (OPEN.)

Entries—T. H. F. Ziegler, J. S. Byrn, G. Partridge, E. L. Blanck, D. Sinclair, J. G. Miller, G. Wilson and H. H. Connor.

Connor went away at a pace that pumped him out, and Sullivan soon headed him and won, with Partridge a close second. Time—58 seconds.

ONE MILE (OPEN.)

Entries—E. L. Blanck) Seattle A. C.), A. K. Fiskin (Seattle A. C.), F. J. Daniels, D. Sinclair, H. G. Dalby, J. A. Bland, C. G. Philp (Vancouver F. C.) and Scott.

Scott put on too much pace at the start, Bland running second and Fiskin next, with Philp keeping close behing. Suddenly Dalby spurted from the rear and on the fourth lap spun away to the lead; Philp dropped Fiskin and Bland, and closed in on Dalby. Dalby won by a couple of yards, with Philp second and Fiskin third. Time—5 05½.

HALF MILE HANDICAP.

Entries—D. C. Tuck, 40 feet; F. Macrae, 35; C. G. Skene and P. Daniels, 20; E. A. C. Gibson, 15; Foulkes and F. J. Daniels, scratch.

On the second lap Gibson went to the front with Macrae a good second. On the home Macrae tried hard to close up the gap but Gibson held him and finished first, Macrae second. Time—2 18 3 5.

CONSOLATION RACE.

There were six post entries for this race, which was won by Pooley in good style, with G. Wilson second. Time—25½ seconds.

The Chinaman's race was great fun, with seven contestants. Mong Ah Suey won with Ah Fong in 1.04 for 220 yards.

After the close of the sports the prizes were presented by Mrs. Ward.

The B.C.B.G.A. band furnished good music during the afternoon. Much credit is due to "Professor" Robert Foster for his successful efforts of last week in getting the track into good shape, and for the taste displayed in the matter of the decorations.

THE WHEEL.

GOOD FRIDAY'S ROAD RACE.

The Victoria Wheelmen's Club opened the racing season of '95 on Good Friday with a fifteen-mile road race over the Beach drive—the start being on Yates street and the course via Oak and Foul bays, finishing with seven mile laps at Beacon Hill—fifteen carefully measured miles. The starters were Frank E. Alley, who rode his fifty miles last fall in 3 07 hours; H. Wille, Justin Gilbert, Charles Bush, S. P. Moody, Frank Penwill, and W. Hewartson of the COLONIST office. The last, the limit man, was never once headed, and finished strong and easily with half a mile to spare. Had he been pushed he could doubtless have clipped two or three minutes from his time.

The race was especially interesting inasmuch as it brought out a good field of absolutely new men—Hewartson, Gilbert, Wille and Penwill never having before participated in a race of any kind. Penwill and Moody, though comparatively inexperienced riders, went like veterans. Alley, the scratch man, had the first time prize well in sight at the thirteenth mile, when an unfortunate fall, caused by a valueless cur, threw him out of the running. Harry Wille, too, was unfortunate, cramps seizing him in the last half mile and robbing him of the satisfaction of finishing well up. A strange wheel and insufficiency of training greatly handicapped him.

Greater interest than ever will now be taken in road racing here, for in the last three struggles new men have ridden off with the honors and when these respective victors come together the battle must be a keen one. Yesterday's time—like that of the memorable fifty-mile race of last fall—was a surprise to the majority, and this will not be decreased by knowledge of the fact that the winning wheels are full roadsters. Hewartson's Crescent weighs in the near neighborhood of thirty pounds.

THE SUMMARY.

Place.	*Rider.*	*Time.*
1	W. Hewartson (10 min.)	55 m. 14 s.
2	S. P. Moody (7 min.)	53 m. 21 s.
3	Justin Gilbert (9 min.)	55 m 03 s.
4	Chas. Bush (6 min.)	56 m. 31 s.

* First time prize. † Second time as well as second place prize. Alley (scratch) and Wille (9 min.) did not finish.

THE GUN.

PRIZE SHOOTING AT LANGFORD PLAINS.

The Good Friday gathering of the Victoria gun club at Langford Plains proved a drawing attraction to many of the best shots of the city, and with admirable shooting weather the meeting as anticipated proved most enjoyable. Mr. W. H. Adams took the club trophy by one point, killing fourteen of the fifteen birds at known trap and angle, and twelve of the fifteen at unknown angle. His shooting was very clean as the score appended shows:

Adams, 11111 11111 11011—11101 11111 11 001.....26

The other scores were in brief: H. N Short and W. Bickford, tie with 25 each; C. W. Minor, 24; Otto Weiler, 23; R Short, 22; W. White, 21; E Grigg, 19; J. Switzer, 18; G. Wynne, 18; E J. Wall, 16; T. C. Smith, 15; C Weiler, 15; J. Monk, 13; G. Henwood, 12; A. Lenfesty, 11; H. O'Brien, 5; and R. Anderson, 4

In the class firing, 25 singles, known trap and angle, the winners were:

A Class—H. N. Short, 22; W. H. Adams, 21; and R Jackson, 21.

B Class—W. White, 19; T. C. Smith, 17; and W. Bickford, 14.

C Class—R Short, 17; E. J. Wall, 16; and J. Morrison, 16.

The consolation match was taken by C. W. Minor, the other prize winners in this event being J. W. Switzer and R. Anderson.

EASTER MONDAY RUN.

The Victoria Wheelmen will meet at the city hall at 1 o'clock to-morrow for a run to Goldstream. An eight-mile pace will be set.

FRED MACLURE THE WINNER.

The Union gun club held their annual Good Friday meeting at Oak Bay during the afternoon, the principal event being a match of fifty singles for a silver cup, according to the club handicap rules. This trophy was carried off by Mr. F. S. Maclure; the scores, however, were not up to expectations, this being the first match of the season. Afterwards there were several other matches, including some at double and at unknown traps, in which some good scores were made. For the cup, there was close competition, though the scores were low, the following being the totals: F. S Maclure, 38; J. C Maclure, 37; B H John and H. A. Munn, 36; H. Beaven, 33; F. Adams, 30, and C. Dickenson, 29.

HERE AND THERE.

GENERAL GOSSIP OF SPORTING EVENTS.

The "Daisies" and the "Buttercups" will illustrate scientific baseball in a match at Beacon Hill to-morrow afternoon.

In the Good Friday baseball match at the Hill, the Fernwood Juniors, defeated the Spring Ridge Nationals by a score of 35 to 21.

Easter Monday's great local event will be the Island Mainland match at Nanaimo. A number of Victorians will take advantage of the special trains and special rates on the E & N., to witness the contest.

Thirteen members of the new archery club formed in connection with the C.O.F., gathered in Parsons' field, Topaz avenue, on Good Friday afternoon and held their first practice shoot. No record was kept but the ladies took keen interest in the pastime, and have decided to hold practices twice a week, on Mondays and Thursdays. On Wednesday evening next the club meets in its hall for the election of officers and other business.

A visit from the Seattle baseball club may be expected shortly, as arrangements are being made to secure a game between them and the Victoria baseball club.

Illegal fishing comes expensive sometimes as Marco Kalitch, Francis Pavesich, George Appir and Julian Arambevin found to their cost yesterday, when arraigned before Magistrate Macrae for taking trout with nets but without a license; $20 and costs was the penalty for each boat, and Capt Gaudin says that illegal fishing in every shape will be strictly suppressed.

CAPITAL NOTES.

New Westminster Artillery Company—Trade Relations With the Cape—Indian Education.

Hon. J. C. Patterson to Govern Manitoba—Of Interest to Sealers—The Civil Service.

(From Our Own Correspondent.)

OTTAWA, April 13.—The British Columbia Artillery, No. 4 company, having been organized, is taken on the strength of active militia, with headquarters at New Westminster. To be second lieutenants provisionally, to complete the establishment: John Forin, Henderson Thomas Clinton, Thomas S. Annandale and De Wolf Smith,

Communications have passed between Canada and the Cape this week regarding a conference to arrange a trade treaty. Premier Bowell answered Hon. Cecil Rhodes that either Ottawa or London would be a convenient meeting place for the delegation. It is believed here that nothing will be done until after the session of parliament.

The question of union with Newfoundland and the Manitoba school issue will be dealt with in the speech from the Throne.

At the militia department the idea that Col. Otter of Toronto will be appointed to command the Canadian militia on his return from England is scouted. Changes in the law are required before such an appointment would be possible.

Hon. J. C. Patterson will not take his seat in parliament during the coming session. He leaves on Tuesday for California for a two months stay. In June he will assume the Lieut.-Governorship of Manitoba.

The regulations have been changed regarding the attendance of Indian children at industrial or boarding schools. Any Indian agent or justice of the peace is authorized to issue a search warrant to take a child back to school.

The civil service promotion examinations usually held may be dispensed with for the current year. It is thought this implies, that there will be no promotions.

Notice appears to-day in the Canada Gazette that of the amount allotted to the seal hunters as compensation for the loss sustained by them under the Behring Sea modus vivendi, a considerable sum remains unclaimed, and the parties interested must make an early application to Collector Milne.

The reports to the Interior department indicate a large influx of settlers in the Edmonton district.

THE NEWS OF LONDON.

Rift in the Conservative-Liberal-Unionist Alliance—The Breach Widening.

LONDON, April 13.—What the Spectator called the worst political omen of the moment is the growing rift in the Conservative-Liberal Unionist alliance. Under the formal treaties between the Conservatives and Liberal Union parties, the former pledged themselves to the support of the candidates of the Unionists in all the constituencies which the latter held when they deserted Mr. Gladstone. At each general election since that time the influence of the Unionists has been visibly lessening, and the Unionist candidates elected latterly have owed their success to Conservative votes.

ATTEMPT AT MURDER.

Unsuccessful Endeavor to Cremate Fifteen Japanese Laborers at Sapperton.

VANCOUVER, April 13.—(Special)—An attempt was made early this morning at Sapperton to burn alive fifteen Japanese laborers employed at the Brunette saw mills. The Japs lived in an old building at the corner of Columbia and Brunette streets. Some people in Sapperton are hostile to the Japs, and it is thought one of the more vicious than the rest attempted their wholesale murder.

Suicide of the Ex-Land Agent of the Northern Pacific Railway Company.

TACOMA, April 13. — Disheartened by financial difficulties and his removal from an honored position, Paul Schulze, general land agent of the Northern Pacific railroad, killed himself in his room yesterday morning at 11:30 o'clock. He put a 38 calibre bullet through his head with a Smith & Wesson revolver.

Prospects for Canadian Trade With Australia—Council of Women.

Inconveniences to Lumber Shippers—Light Oolachan Run—Perjury Case.

(Special to the COLONIST.)

VANCOUVER.

VANCOUVER, April 13.—Mr. Scott, one of the Canadian manufacturers who went to Australia on the steamer Warrimoo, spoke enthusiastically to the COLONIST correspondent of the prospects of Canadian trade with Australia. Owing to the depression the demand for machinery is not active Mr. Scott shipped several carloads of carriage furnishings to Australia via the C. P. R., and with the special rates afforded by that line he considers he can make profitable shipments. Goods get to Australia quicker via Vancouver than by New York. The Canadian Rubber Co., of Montreal, placed an order for goods aggregating £10,000 a year with Sydney firms alone.

The local council of the women of Vancouver has chosen four delegates to attend the National council convened in Toronto, May 27.

Cassidy & Co. are loading scows at their False Creek mills, and having them towed to the Inlet. Were it not for the old railway bridge ships could load directly at the mill.

Good Friday passed off very quietly. Almost the entire population walked or drove to the park.

WESTMINSTER.

NEW WESTMINSTER, April 13.—The charge of perjury against Bowyer in the Williamson v. Corporation case, has been adjourned to a date to be fixed by the magistrate.

One hundred ship spars are being got out at the North Arm for the Hastings mills They are to be sent around the Horn to Sydney, N.S. The spars will be of fir, ninety-five feet long and twenty-three inches in diameter.

The oolachan run is light so far; the heavy run is expected next week.

VERNON.

(From the News, April 11.)

Without any evidence of public excitement, the nomination for the vacant positions in the city council was held on Wednesday. It was thought at one time that a contest was probable; but Mr. W. C. Pound refused to allow himself to be nominated for the North ward, and therefore the three candidates were returned by acclamation as follows: North ward, A. G. Fuller and Thomas H. Milne. South ward, Fred H. Barnes. Mr. Fuller will bring to bear upon his duties an experience acquired during his term of office as a member of the first council after incorporation. The other two aldermen have had no previous experience of this nature, but they are well known as enterprising citizens of sound judgment.

On Sunday afternoon the new Presbyterian church at Lumby was for the first time opened for divine service. A number had driven up from this city, and the neat little church, which is a credit to Lumby, was well filled with an attentive congregation. The dedicatory service was conducted by the Rev. G. A. Wilson, B.A., whose indefatigable efforts are responsible in a large degree for the fact that the church has been erected.

On Tuesday morning Mr. J. B. Donald, who was last week committed for trial on the charge of falsifying and mutilating the books of the firm of Riley & Donald with fraudulent intent, appeared before Judge Spinks at Kelowna, having elected to be tried under the speedy trials act. Mr. Fred. Billings conducted the case for the prosecution, and Mr. A. Macdonald appeared, as before, for the accused. After the evidence had been taken, His Honor in summing up the case said that no evidence had been produced to show that the alterations and erasures made by Mr. Donald were done with intent to defraud. As a partner he had a perfect right to draw out money from the business and charge it to himself. If he had drawn more than his share, that matter must be settled between the partners in another manner, but not in a criminal suit of this nature. The evidence could not be accepted as proving an intention to defraud the creditors. He therefore dismissed the case. Mr. Donald was sincerely congratulated on the happy termination of his trouble by his friends, many of whom had all through the case expressed their conviction that he had been guilty of nothing more serious than such errors in book-keeping as any inexperienced man is liable to make.

UNION.

(From the News, April 9.)

At the annual meeting of hospital subscribers held at the school house Saturday evening the reports of the treasurer and surgeon were received, showing a satisfactory condition; and report of auditing committee finding the accounts of the treasurer correct read and filed, after which the following were elected for the ensuing year: President, J. Abram; vice-president, J. McPhee; treasurer, Dr. Lawrence; secretary, J. B. McLean, who are ex-officio members of the board of trustees or directors, which was completed by the election of Wm. Mitchell, Thos. Russell, Wm. Anthony, Andrew McKnight and M. Whitney. The present surgeons, matron, nurses and help are retained.

The total receipts for the three months, including government grant, are $734 20; total expenses, $769 32. There is, however, something over $100 still in the hands of the building committee to be turned over to the treasurer.

The Presbyterian bazaar and entertainment at Reading Room hall last Tuesday evening netted about $100. The hall was crowded to the very doors. The supper was excellent, and as one remarked, a good deal better than baching. The ladies had displayed good taste and judgment in making up articles for sale and were rewarded in seeing them disposed of at good prices. The guessing cake weighed 6 lbs. and 2½ ozs., and as three guessers, approaching it from above and below, "tied" on it, it was auctioned off for $2 25 to Mr. T. Turnbull, realizing in all about $8.

HAS REACHED WASHINGTON.

A Beautiful Tale of Three Women Who Bared Their Heads at the Theater.

Three ladies walked down the center aisle in the National theater Monday night. They wore hats—hats of a florid style of architecture and covered with luxuriant vegetation. Strong men shuddered and grew pale with anxiety as to where those hats would eventually locate themselves, and as the ladies slowly moved to the front the feelings of the audience verged upon the stormy and tumultuous. At last they were seated well down toward the orchestra, and at least 100 persons—those directly in the line of sight—turned wan and ghastly with despair. In a moment, however, nimble fingers were at work, and before the watchers could gulp down their first wild anguish the hats disappeared, and three sleek, shapely and inoffensive heads appeared in place of them.

So the fashion has reached Washington. We have among us, then, the pioneers of the propaganda of mercy, consideration and gentleness. A new standard of morality has been erected. Women are showing their thoughtless sisters how to be kind as well as beautiful, gentle as well as fair, how to bless as well as to adorn the world. Here is a fashion which recognizes humanity, a manifestation of female loveliness that makes allowance for the comfort of others. It is a new philosophy, a gospel of sweetness and light, a dispensation of true ecstasy.

Why cannot the superior set make common cause in this? Why, if they must have their hats wherewith to paralyze the vestibule and fill the aisles with pageantry as they come and go—why can they not at least follow the divine example we have chronicled and uncover when they take their seats?—Washington Post.

THE NEW WOMAN IN GEORGIA.

She Cycled Through the Streets of Atlanta and Horrified the Natives.

A few days ago, before the snow came, there was an amusing little happening on one of the principal streets of the city which bears relating. Two men from away up in North Georgia who chanced to be down here attending the United States court as witnesses in some moonshine cases were walking along talking enthusiastically about a proposition to go in and get an oyster stew for dinner. The matter of dispute seemed to be as to who should pay for the stews They were somewhat excited and paying little attention to the rest of the world when all of a sudden a woman on a bicycle swept up behind them very close to their backs and gave the bell of her wheel a sharp whirl of a ring.

"Whoop! Don't do that again!" screamed one of them, and they both shot away up in the air and landed many feet away.

Turning around, they saw the lady dashing on down the street, unconcernedly bobbing up serenely over the Belgian block.

"Gol darn my buttons," said one of the visitors to the other, "dat's one uv dem votin women dat's come down here fum de north. Dey'll be doin uv ev'ything fust thing you know."—Atlanta Constitution.

THE QUEEN'S HEALTH.

Differing Opinions on This and Other Subjects Connected With Her Highness.

Queen Victoria has been in London recently, according to The Court Circular, but if it had not been for the official chroniclers the inhabitants of the metropolis would probably not have been aware of their sovereign's presence among them, for, save for her drives to and from the railway stations, her majesty has only shown herself in public once, and then muffled up to the eyes against the cold weather. On the strength of that solitary peep courtly but mendacious reporters have ventured to descant upon the queen's good health and lively spirits.

The fact is that she never looked so aged and wan and worn as at present. She is less able than ever to walk even the shortest distance without assistance, and she is bent almost double. Nevertheless the renewed talk of her abdicating in favor of the Prince of Wales may be dismissed as pure invention, for, if physically feeble, Queen Victoria is mentally a thoroughly sound woman, and she is said to retain to the fullest degree her marvelously clear perception of the most intricate affairs of state. She will start for the south of France in about a week.—London Letter.

THE HORSE FLY MINE.

To the Editor:—Through your columns permit me to reply to "Cariboo Miner's" letter in Times' issue of the 21st of March. We will not enter into any discussion as to his remarks affecting the virtue or wisdom of the courts, the proverbial wisdom and integrity of the British courts will not be affected by such vaporings. We deem it but right and just to inform through this channel a large number of the stock holders of the Horsefly Gold Mining Co., who reside in B. C., of the facts in regard to the Harper leasehold and the true position of the jumpers who have caused the company much trouble and forcibly taken possession regardless of law, of a portion of this leasehold property, tools, etc. In the first place, in 1878 gold was found in paying quantities in a bar on the Horsefly river, the Water Witch Co., composed of five miners, staked off claims and proceeded to work the same by rocker, there being no water available for mining purposes without a great outlay of capital to bring it on the ground. Within a few days after this discovery T. Harper and R. T. Ward went into the "New Eldorado" and purchased two and three quarter interests in those claims, paying therefor $3,500 cash. That season many miners located claims covering hundreds of acres of ground, prospected, put shafts down to bedrock, ran tunnels, etcetera, in all of which gold was found, but there being no water available, except as above stated, abandoned their claims or sold them after another season's labor. In 1878 the Water Witch Company dammed the river, put in wheels and pumps and expended $9 000, only to be washed out with the extraordinary freshets the stream is subject to; they took out $4,500 for the season. In 1879 the company again put in wing dams, wheels and pumps, and during the season when the water was at such a stage as to permit them, they mined the ground, taking out $7,500 at an expense of over $10,000; again in the spring their dams were washed out, the ground occupied by at least one hundred free miners had mostly been abandoned, they finding it impossible to work it at a profit.

In 1880 little work was done and Harper still having faith in the Horsefly acquired by purchase all the remaining interests of the Water Witch company, and also all the other claims still occupied by miners except the Chinese companies, No claims were worked successfully in this vicinity except the Chinese claim which Harper afterwards purchased in 1887, and it became a part of this leasehold.

Harper, realizing from the work done that gold in paying quantities was extensively distributed not only in the bed of the Horsefly river at this point but in the flats and benches on each side, and believing it possible to work the same to advantage if handled by improved machinery on an extensive scale, which would cost a large amount of money, decided to take the risk if the government would give him a lease for twenty years to a tract of land of 360 acres, sufficiently large to enable him to prospect for the channel, which at that time was uncertain and not located. The channel was not expected to run under the whole 360 acres, but was thought to cross it at a place which was undetermined. The executive council, after considering the application and the recommendation of the gold commissioner, passed an order instructing the gold commissioner to make the lease as recommended. The gold commissioner made it for ten years with the covenant for renewal of the same lease for ten years more from Oct. 23, 1894, subject to the conditions contained in the lease. Harper immediately commenced constructing a road from the 150-Mile House—the nearest point of civilization on the wagon road 40 miles distant from the mine—over a rough, mountainous, timber and swampy country, so as to get in such machinery as would be required to prepare the ground for mining. A forty horse power engine and boiler, steam pumps, saw mill and several thousand dollars' worth of tools, to fully equip such a mine, were sent in as soon as the road was passable for teams, and an average of fifty or more men were kept at work on the property till the fall of 1888. This work cost Harper over $40,000 without any returns. At this time the well known business difficulties in which Harper became involved as the result of a serious injury to his person, caused his vast estate to go into the hands of the court's receivers.

During 1889 the receivers worked this property and could not make it pay; they then sub-leased to Vieth & Borland, who did considerable work but could not make it pay, nevertheless their results only proved to my mind that Harper was right and that the mine was a good one as a hydraulic proposition. That fall the leasehold on the Horsefly was sold by order of the court to the highest bidder. I having been one of the original locators of the ground and being familiar with the experiments previously tried, believed in the proposition and put in a tender at the receivers' sale, which proved to be the highest and consequently got the property. In 1890 I was prevented from working the claim by an injunction of the Supreme court, during the whole season, but kept my men getting out timber, etc., for use on the mine at an expense of $2 500, and until the injunction was dissolved by dismissal of the action under which it had been obtained.

A deed to the leasehold was made to me in 1891 approved by an order of the Chief Justice, and during that year the mine was fully worked with a large force of men throughout the season at an expense of over $11,000, with a small return. In the spring of 1892 I commenced mining with a full force of men and worked them throughout the season as well as put in a new steam pump and additional machinery; I also found that the ground could not be mined profitably by drifting and sluicing; but could be profitably hydrauliced by using the improved hydraulic gravel elevator. After having examined several mines with ground similarly situated to ours, working successfully by means of this process, and handling gravel and water and piping the same to an elevation of ninety feet—all turned into the sluices at that elevation, at an expense of three cents per cubic yard for the gravel, where water was plentiful and at a sufficient elevation under such conditions as we had at Horsefly—I immediately surveyed and commenced the excavation of a ditch to carry 2,000 inches of water from Moffitt creek, a distance of eight miles, and did much work on the same, the season's outlay being over $8,000 and no returns.

During the season of 1891 we got some good pay in the bed of the river that caused some excitement throughout the country and the attention of mining men was drawn towards Horsefly. Among others interested was John Spaulding, a well known mining man of California, who went into Horsefly and remained on this ground prospecting for several days. When he left he was so favorably impressed with the value of the country for hydraulic mining that he reported his views to certain officials of the C P.R., who immediately sent to California for a mining expert, and were fortunate in securing the services of J. B. Hobson, who in 1892 visited the Horsefly in the interest of the gentlemen hereinbefore mentioned, immediately located them and commenced at once the usual course pursued by wealthy corporations—to acquire all of the interest to them in sight. Immediately upon their discovering the value of the ground and the necessity for a large amount of water to hydraulic the same, and the only available water was covered by the Harper lease, they commenced steps in March, 1893, before the Gold Commissioner in Cariboo, *without due notice to me*, to limit my water right under the lease from Moffitt Creek. They were successful in having the Gold Commissioner make an order purporting to limit my water right to one hundred inches, an amount perfectly useless for the purpose of hydraulicing this leasehold, which order quite effectually tied up the property and compelled a stoppage of ditch work and mining till the order of the Gold Commissioner could be set aside.

An action to do this was at once commenced in the Supreme court by me; the Gold Commissioner upon application realizing the impossibility of working the ground to advantage without a large quantity of water, and the uselessness of excavating a ditch and laying a pipe line at a cost of $25,000 until the water right was determined, granted a "lay over" and leave of absence for the leasehold until the case could be properly tried, or till September 1, 1894 The various stages of the action were hotly contested, and on the 27th of September last a satisfactory compromise settlement of the water question between the parties was made by a division of the water rights held by each company. During all this time, 1893 and 1894, I had workmen on the premises who were in possession of the property, and the expenditures on the mine and in connection therewith, while leave of absence was granted by the Gold Commissioner, was over $6,000 with no returns. In January, 1894, being anxious to proceed with the development of my mine, and seeing little prospects of having the water question early determined, I applied to the Gold Commissioner for a grant of water sufficient to enable me to hydraulic my claim, I paid the statutory fee of $25, and asked for the grant subject to existing rights, so that there could be no possible legal objection to the grant being made, and that grant still remains to be determined.

In August 1892 the Gold Commissioner granted 2 000 inches of water from this same stream to the other company, and in the same order attempted to limit my water right, which I held under lease from the crown (to the whole creek if necessary) to 100 inches, to work 360 acres, at the very time I was excavating a ditch to carry 2,000 inches. In 1894, seeing that it was impossible for me alone to overcome the many obstacles placed in the way of developing the property, I sold the leasehold right to the Horsefly Gold Mining Co. (an incorporation composed of mining men for mining purposes), after first getting the written consent of the Gold Commissioner to assign the same, the company having been duly organized and registered with the registrar of joint stock companies in Victoria, and having prior to the transfer procured for itself a free miner's certificate according to the placer mining act. Deeds of transfer were properly recorded in Cariboo and the company's representative put in possession of the property.

Application for a renewal of the lease, according to the covenant therein contained, was made to the government some time before the first ten years of the lease would expire; but about the 23rd of October a petition was received by them purporting to be signed by a number of people, and it was claimed that some were free miners, protesting against the renewal and assigning as a cause that the ground could not be hydraulicked; that it was available to be worked by free miners, that the lease had been abandoned for nearly two years, and that the present owner only wanted a renewal to enable him to sell out to a foreign corporation composed of innocent mining operators, who knew nothing of the character of the ground. Upon investigation it was found that the petitioners were a few irresponsible men and such sympathisers as they found among the foreign element who were employed as laborers on the ditch of the Horsefly Hydraulic Mining Co. (not a settler or business man in the country having attached his name), who had during the summer and while the claim was laid over by the gold commissioner taken forcible possession of the works, tools, rockers, etc., belonging to the leasehold property, and were working on the banks of the river, and taking out some gold against the protests of the company's agent, who was in possession, and who notified them in writing to vacate the premises, being physically unable to oust an armed force of such characters. Instead of vacating they succeeded in getting the recorder, who is about sixty miles from the scene of operations to record claims they had staked, he not knowing they were on leasehold ground. Application was immediately made to the gold commissioner to order them to vacate the leasehold and he notified them that if they located on the leasehold any rights they might acquire would be subject to the lease then existing, and wrote me that it was the duty of the recorder to record all claims handed into his office, either on occupied ground or otherwise. The government, desiring time to investigate, extended the lease by various orders in council till May 24, 1895, in the meantime referring the matter to a justice of the Supreme court for his consideration and report.

After many delays the case came up for hearing January 11, when testimony was taken to show that the terms of the lease had been complied with. Up to the time the assignment was made to me there had been expended under the lease nearly $40,000, and since that time the evidence showed an expenditure of over $29,000. The hearing was then postponed at the request of the attorneys for the petitioners and also for the Crown till February 11, to give them time to produce witnesses from Cariboo. On February 11 all the parties appeared, represented by counsel, before Justice Drake and five witnesses that the government had brought from Horsefly at considerable expense. Messrs. Eberts & Taylor, attorneys for the other side, had only one witness sworn after all this delay, and did not put the others

FOR SALE--20,000 ACRES FARMING LAND

In contiguous Blocks; Beautifully watered; forming one of the finest estates in the Province; house and farm buildings, 2000 cattle; 50 to 80 horses, easy approach; good roads; railways projected to property and the estate is in close proximity to some of the best developed, most promising gold mines in the District. The price of the whole is extremely moderate. Principals only treated with.

FOR SALE--A 1388-ACRE FARM

About 1000 Acres of which is Ploughable Prairie of First-class Quality.

120 Head Cattle 1 pedigree Hereford Bull.

12 Horses.

Ploughs, Harrows, Reaper, Wagon, Sleds and usual Farm Implements.

Double Harness, Chain Harness, Bull Chains, Saddles (ladies and gent's), Bridles, etc.

Blacksmiths' Bellows, Anvil and Tools and Carpenters' Tools.

9-Room House (shingle roofed; Stable for 10 horses, with hay loft above; Stone Roothouse, Store Buildings, Dairy, Cow Sheds, etc., etc.

7 Miles (about) Standing Fences, in good order; Corralls, &c.

Small Lot Household Furniture, Stove and Pipes, Cooking Utensils, Crockery, etc., etc.

This Property is within easy distance of many of the most important Gold, Silver and Coal Mines in West Kootenay. The soil is the best bottom land, and the locality is one of the few places in the Province where so large a piece of good farm land can be found in one block. A river runs through the property, and rainbow trout are plentiful and afford capital sport. Deer abound in considerable numbers. Bear, Wolf, Coyote and other large game are to be found in the hills. There are two creeks recorded and belonging to the estate, one flows all the year round. Limestone and brick clay are to be had in the valley.

The Gattle are well bred; a much larger herd could be farmed with the place. The bunch grass on the hills in the vicinity covermany thousands of acres, and is available to the few land owners in the valleys.

The Climate is not severe, the station was for many years the winter quarters of the H. B. Co.'s pack trains.

The Title is Crown Grant. Immediate possession can be given.

The South West Kootenay and Osoyoos Divisions of Yale District, British Columbia, judging from the actual ore products of the mines to date, are destined in the next year or two to be the richest and most important mineral centres in the world.

These localities are rapidly settling up and as farm land is limited great inducement is offered to any person or corporation having capital and knowledge necessary to develop and work these estates. A store, hotel and blacksmith shop could be run in connection with the farm.

Food for the Hungry.

The undersigned desires to call the attention of parties interested to the fact that temporary provision has been made for the relief of those in the city who are suffering from lack of necessary food.

The services of the officers of the Salvation Army, which have kindly been offered free of charge, have been accepted and arrangements made for the operation of a "Food Depot" in a room at the rear of the Salvation Army Barracks, Broad street.

The depot will be in running order on and after Tuesday, the 29th instant.

Breakfast may be had from 9 to 11 a.m., and supper from 4 to 6 p.m., and will be served to those holding tickets, which may be procured at the Barracks for a nominal sum, or in absolutely destitute cases, free.

Parties wishing to assist the movement may provide those whom they believe to be needy, with tickets, or may send in supplies to the Depot at any time during the day.

The undersigned would commend the Depot to all charitably disposed persons as an object most worthy of their practical support.

THE SEAT OF WAR.

Captain F. E. Younghusband on the 12th of March last read at the fifth ordinary general meeting of the Royal Colonial Institute a very interesting paper "On the Kashmir Frontier." Captain Younghusband has earned the reputation of being a very courageous and a most intelligent traveller. He probably knows more about Northern India and the regions adjacent than any living Englishman. The parts of India through which he has travelled, were, until lately, but little known in Europe. The mountain region did not tempt the traveller. To explore it is a work of very great difficulty and the races by which it is inhabited have had very little intercourse with civilized men.

You must all of you, the lecturer said, be aware that our Indian Empire is hedged in on the north by a gigantic range of mountains—the Himalayas and the Hindu Kush At the foot of these are the great plains of the Punjab, and up to thirty years ago our influence extended very little beyond these plains. On their immediate borders we had a few stations in the hills, and a political officer used to visit Kashmir for the summer months every year, but beyond the actual valley we interfered but little, and in the remote states of Chitral, Hunza and Gilgit not at all. We had no object in extending our influence, and consequently our responsibilities, to these distant inaccessible regions, and, therefore, we did not do so.

But the time came when Great Britain felt it necessary to pay some attention to the northern frontier of India. The Russians were approaching the northern side of the Himalayas steadily if not rapidly. They were acquiring territory, building railroads and making highways to very nearly India's northern boundary. Some little time ago movements that were considered to be threatening were made in the region of the Pamirs, and it was thought well to find out something more of the mountainous region and the men that inhabit it than was then known. So the Government of India unobtrusively but perseveringly took measures to extend its influence northwards. This does not appear to have been very difficult. The Maharajah of Kashmir was amenable to British influence, and through him the British soon came to exercise control over the whole region. They did not interfere to any great extent in local matters, but the relations of the Maharajah with neighboring states were regulated by the Government of India. Some of the tribes did not submit very willingly to the new authority, but a way was found to bring them under subjection. Chitral, which is now the seat of the little war, is nominally at any rate under the suzerainty of the Maharajah. A political agent, Dr. Robertson, was sent there, and with him a small force.

Captain Younghusband describes the people of this remote region and the work which the British had to do in it. So secluded were these mountain people that they did not know the use of money. The men hated work and it was found hard to convince them that it was worth their while to exert themselves for the sake of getting a few pieces of white metal, which, as far as they knew, could be used only as ornaments. As the British had to construct roads and to build bridges in this wild country they found it necessary to teach these people that money was good for something else than to adorn their persons.

The aversion of the natives to work is thus described by the lecturer:

When I first came through these countries five years ago the people fought against doing any work whatever. There was such difficulty in getting them to carry loads, even though they were paid well for doing so, that it seemed to me we never would be able to get them to regard us as anything else than tyrants forcing them to do what they disliked more than anything else—work. But the great schemes for the construction of roads and irrigation channels and the establishment of hospitals and dispensaries which Colonel Durand initiated are gradually revolutionizing this feeling towards us. We do seem to come hard on the people of a new country at first. We came rather hard on Kashmir and on those frontier states. The intrusion of an energetic and hard-working power into their midst must, of course, be at first a strain on people who have hitherto lived indolent lives; but the worst comes at the commencement, and I hope in this furthest limit our empire is likely to attain to in the Kashmir direction, an era of progress for the people is slowly coming into being.

It may readily be supposed that these ignorant mountaineers are not very well skilled in the art of war, and that no matter how brave they may be, they are not a match for well trained and well officered soldiers? The Maharajah's troops were a short time ago in a very bad condition, being "badly fed, badly equipped and badly paid." But under an effective administration and better instruction they have been greatly improved. It does not appear that there are any of these soldiers in General Law's little army.

It can be easily seen that carrying on a war in such a country as this is no child's play, even if the enemy in possession of the strongholds is inferior in numbers and discipline.

HYPNOTIC SUGGESTION.

There must be something in the atmosphere of Kansas favorable to ultra radicalism. In politics advanced views are eagerly accepted by its inhabitants, and attempts have been made to carry them out. Financial doctrines are popular there which are but coldly received everywhere else. We do not know anything about the religious opinions of the people of the state, but we would be surprised to learn that the donuminations generally regarded as orthodox flourish among them. Considering the receptiveness of the citizens of Kansas the news that one of the courts of the state decided that evidence in favor of hypnotic suggestion in the commission of crime can be received and that a conviction was obtained on such evidence is not surprising. The case was a very serious one. Thomas McDonald was arraigned for killing Thomas Patton. The murder was wholly unprovoked. McDonald's defence was that he was not responsible, for he committed the crime while under hypnotic influence. The hypnotiser was Anderson Gray. The particulars of the evidence in support of this plea are not given in the telegram before us, but the jury were satisfied that McDonald did not know what he was doing when he killed Patton, that he was nothing more than a passive instrument in the hands of Gray, and they therefore acquitted him.

Anderson Gray, the alleged hypnotist, was then arrested, tried and found guilty of murder in the first degree, although he was not present when the crime was committed. The evidence for the State, it is said, proved that the murder was committed through hypnotic influences exercised on McDonald by Anderson Gray. The most surprising part of the story is that an appeal was taken to the "Supreme Court," which sustained the verdict of the lower court.

This, we believe, is the first case in which hypnotism has been recognized by courts of law. There can be no doubt that there will soon be other cases. Nothing is easier than for a criminal caught red-handed to declare that he is unconscious of having done anything wrong and to charge someone with whom he is intimately associated with being responsible for the crime. It is not hard to imagine how difficult it might be for the person thus accused to prove his innocence. The ways of the hypnotist are various. It is said that he can enslave a susceptible subject who has been brought under his influence by a word or a look, and then the hypnotist can make any suggestion he pleases without the subject being conscious of acting under any other influence than that of his own mind. When once evidence of hypnotic influence is admitted into the courts of law a new avenue is opened for the escape of the guilty and the door is opened wide for false accusations without number.

THE CHOLERA.

There is a well-grounded fear that the cholera will, when the summer comes, break out again in Europe and perhaps cross the Atlantic. It has during the winter been lingering in Russia, Galicia and Turkey. There have been, too, during the winter, cases in Germany, Holland and Belgium:

At last accounts, says the New York Times, there was cholera in thirty-one governments or provinces of Russia. We select the following from the list, with dates which show how the disease and the germs of it have defied the low temperature of the past season:

	Cases.	*Deaths.*
Podolia, Nov. 11-Feb. 2	2,031	867
Bessarabia, Nov. 11-Jan. 12	135	62
Kiev, Nov. 11-Dec. 29	161	71
Kovno, Nov. 11-Dec. 29	98	53
Kurland, Dec. 23 Jan. 26	38	19
Minsk, Nov. 16-Jan. 12	54	20
Petrikov, Nov. 25-Jan. 19	80	38
Riazan, Nov. 4-Jan. 5	52	33
Saratov, Nov. 11-Jan. 12	29	21
Taurien, Nov. 4-Jan. 25	96	58
Volhynia, Nov. 4-Jan. 26	181	80
Witebsk, Nov. 18-Jan. 12	60	34

The record in Russia for the last two years tends to support the theory which we advanced some months ago that in that country this disease may have found a new home.

In various parts of Turkey—both in Asia and in Europe—cholera has prevailed for several months past. In Adalia, from Dec 11 to Feb. 18, there were 230 cases and 127 deaths. During the second and third weeks of January, 48 cases and 31 deaths were reported in Siverek. From Jan. 9 to Feb. 19, there were 181 cases and 91 deaths in Constantinople. The first case in that city occurred in September, and the Sanitary Commissioner of our Government reports that the considerable number of cases recently occurring there "are scattered all around the city, among civilians as well as among the troops, among the poor as well as among the rich." Constantinople is in a deplorable condition. In the three months ending on Feb. 12, there were reported to the authorities 421 deaths from smallpox.

The cases in Western Europe were early in the winter. The cold weather evidently prevented its spread, if it did not kill it altogether. If it is only dormant in these countries it will be sure to show itself again as soon as the weather gets warm. It has, it seems, made Russia and Turkey its permanent abode. If in the coming summer the conditions are favorable to its spread it may find its way across the Atlantic. It behoves the Governments of the United States and the Dominion of Canada to be vigilant, for it is much easier to keep the cholera out of the country than to drive it out after it once gets a foothold.

The cholera, it should be remembered, is just as likely to come to this Pacific Coast from the West as from the East. It is never altogether absent from India and China. These countries are, in fact, its breeding grounds. We trust that the quarantine at William Head is in an efficient condition, and that the regulations will be in every case rigidly enforced.

THE CITY.

CRAIGFLOWER bridge is closed to traffic during repairs.

MR. JORGENSEN is making rapid progress with the survey at Beaver lake.

THE Epworth league of the Metropolitan church give a social in the Y.M.C.A. hall on Wednesday evening.

CAPTAIN STEPHENS, the newly appointed officer for the local corps of the Salvation Army, will be to the front all day to-morrow to lead the meetings.

PRIDE of the Ridge lodge, I.O.G.T., have arranged to hold an open meeting to-morrow evening in the Odd Fellows' hall, Spring Ridge, the men of H.M.S. Pheasant taking a prominent part.

TENDERS are invited by the city for the erection of poles, line work and the completion generally of the electric light extension; tenders to be received in the city clerk's office till the 22nd inst.

THE residents of Salt Spring island and neighborhood will soon have a daily service, as a steamer is to be put on between Sidney and Vesuvius Bay, running in connection with the Victoria and Sidney railroad.

UNDER the auspices of Mayor Teague the Sons and Daughters of St. George will give an entertainment in Sir Wm. Wallace hall on Tuesday, April 23, for the benefit of the parents of Arthur Bloor, one the victims of the Victoria disaster.

ARRANGEMENTS have been completed for the grand Orange ball to come off to morrow evening. The A. O U. W. hall has been beautifully decorated for the occasion, and presents a very attractive appearance. Orangemen will attend in regalia.

THE funeral of Richard Horne, who came to so tragic an end Thursday morning in the fire in his cottage on View street, took place on Good Friday. There were absolutely none to follow the remains of the poor unfortunate to their last resting place at Ross Bay.

THE number of tickets for the Primrose ball under the management of the Companions of the Forest being limited, they are nearly all sold. The committee are working energetically and have arrangements well completed. The prizes may be seen in Hibben's window.

THE services at the R. E. church to-day promises to be of great interest from a musical point of view. A new morning service—Te Deum, Jubilate and Kyrie—composed by Mr. Bradley, will be rendered for the first time; and in the evening an interesting service of song will be given.

SKILLED workmen are engaged in construction of the first four barges which the Kaslo & Slocan Railway Company propose building for the conveyance of the railway plant and freight between Bonner's Ferry and the lake terminus of its railway. Mr. McAskell, a New Westminster ship carpenter, is in charge of construction.—Tribune.

STAINER'S "Crucifixion" was rendered before a large congregation at Christ Church cathedral on Good Friday evening, under the direction of Mr. Godfrey Booth, assisted by Mr. Herbert Kent and Mr. Keith J. Middleton. There was ample evidence of careful, painstaking preparation, the whole presentation being highly impressive and quite in keeping with the special occasion and the high musical reputation of the choir.

VERDI'S dramatic opera "Il Trovatore" teems with the composer's earlier fire and intensity of sentiment, being replete with tragic situations. Besides the forceful element, the music contains many charming melodies and sparkling arias, and the choruses are both striking and catchy. This piece is to be presented by a local company on Tuesday and Wednesday evenings of this week, with a complete performance at the matinee, which has been changed to Saturday at 2 p.m.

CAPTAIN PATTERSON, of the Food and Shelter of the Salvation Army, says that the new shelter will be formally opened within a fortnight. Work is being pushed forward at a rapid rate. He also wished to say that donations of all kinds are most thankfully received. Gifts during the week have come in from the following kind friends: R. Porter & Sons, A Friend, London Bakery, Ideal Provision Store, Marshall & Co., M. R. Smith & Son, Parker's Meat Market, L. Goodacre and R. Eccles.

A. LEE ROGERS, of Vancouver, who has just returned from a tour in southern California, has some charming water color sketches on view in J. Sommer's windows. They comprise choice bits of the lovely coloring of the scenery in the neighborhood of Santa Barbara, the gem of the collection being a painting of the old Spanish mission. Mr. Rogers enjoys a high reputation, for his work is always excellent, and before leaving Santa Barbara he gave an exhibition and sale, which the local papers state was most successful in every respect. The pictures at Sommer's are well worthy of inspection.

THE Good Friday outing of the three headquarter companies of the Garrison Artillery proved as expected thoroughly enjoyable, everyone in the parade being well satisfied with the experience. The battalion marched from the drill hall about 10 a.m., under the command of Lieut.-Col. Peters, D.A.G., who by request kindly took charge on account of Lieut.-Col. Prior, M.P., having left for Ottawa. The band, under Bandmaster Finn's direction, led the way and played a good selection of popular marches very acceptably. The route was up Superior street to the park, and across to the Fairfield road, this being the shortest cut to Foul Bay, the intended scene of the day's operations. There a supposititious enemy were met and duly driven off, well directed volleys and independent firing from the rocky fastnesses of the neighborhood quickly settling the business. The soldiers then lunched at their ease and having rested marched back to town, arriving at the drill hall about three o'clock. The Bandmaster has been complimented on all sides for the excellent music given, and the frequency with which the band tuned up.

THE first consignment of stone for the new post office arrived from Keefer's quarry, Burrard inlet, on Good Friday.

ON and after Monday the working day of the tramway company will be one hour longer, the cars starting at 6 instead of at 7 a.m.

CAPT. A. N. SEATON delivered the first of a series of lectures on "Navigation" before the Sir William Wallace society Good Friday evening.

LAST evening's popular concert in the Y. M C A hall drew the usual appreciative audience. The programme as published was faithfully carried out.

THE entertainment arranged by the Ladies' Association of St. Barnabas church, to be held in the Odd Fellows' hall, Fernwood road, promises to be of a highly pleasing character.

PROFESSOR GLEASON'S success in the handling of horses is said to have induced a local imitator to tender his services to a couple of Indians on the reservation, the result being that the animal operated on was found—strangled.

WORD was received from Nelson yesterday that Captain Fitzstubbs and his posse had arrived at the scene of the trouble between the reclamation company's employes and the Kootenay Indians only to find that the reds had, as anticipated, withdrawn to the American side. They threaten to return and make night attacks. The authorities are taking proper precautions.

QUEEN'S BIRTHDAY.

Initial Steps Taken by the Citizens for Victoria's Yearly Celebration.

Meeting of the General Committee to Be Held on Wednesday Evening.

It was unanimously decided at a public meeting presided over by the Mayor, at the city hall, last night that a Queen's Birthday celebration should be held this year.

Mr. Beaumont Boggs was chosen secretary and Mr. Charles Kent unanimously elected treasurer.

Mr. Gregory strongly favored having the regatta in the harbor instead of up the Gorge. The course on the Gorge was too crooked and narrow. Mr. Dwyer supported Mr. Gregory's proposal, but Mr. Seeley put in a plea for the Gorge, its great natural beauties being one of the chief attractions.

Finally, after voting down Mr. Gregory's motion, which was aimed against having the regatta in the Gorge, it was resolved that the general committee should say where and how the regatta should be held.

As a nucleus of a general committee the last year's committee was chosen, with power to add to their number.

The list of last year's committee was:—Lieutenant-Governor Dewdney, the Mayor and City Council, Officers H.M. Navy, Officers R.M. Artillery, Lieutenant-Colonel Peters, D A G., and officers B C B G A., Royal Dockyard officials, E.G. Prior, M.P., Thomas Earle, M.P.; Hon. Theodore Davie, C.J.; Hon. J. H. Turner, Hon. FROM THE ORIENT.

The Northern Pacific Liner "Sikh" Completes an Interesting Voyage.

To the Victors Belong the Spoils—The "Joan" on the Railway.

At nine o'clock yesterday morning the Northern Pacific steamship Sikh, Captain Rowley, tied up at the ocean dock, thirteen days out from Japan. She left Yokohama just one day behind the Empress of Japan and experienced good weather until two days out from Victoria. The Sikh was in Moji at the time of Li Hung Chang's shooting and her officers witnessed the distinguished diplomat's arrival there. In passing through the inland sea the Sikh passed a large Chinese ironclad in tow of a small Japanese troopship, the former having been captured at Wei-Hai Wei. The Sikh brings a heavy cargo, of about 3,000 tons, of which nearly one-third, as already mentioned, is for Victoria and San Francisco. There were 180 Asiatic passengers, of whom 53 Chinese and 80 Japanese disembarked here. As saloon passengers the Sikh brought Captain Morris and Messrs. Mehl, Johnson and Collier. The first named was master of the British steamer Bristol, 4,000 tons, which was sold to the Japanese government about a month ago for a transport. Mr. Mehl is a tourist, while the other gentlemen in the saloon are Chinese missionaries returning home. The officers of the Sikh have no late war news. They say the Japanese continue to return home from the Chinese frontier, compelled to do so by cold and exposure. Concerning the Sikh ceasing to run for the N. P. company, her officers have little to say. She can only be replaced by a vessel from the Atlantic side, as the Japs have purchased or have employed as troopships every suitable vessel that can be secured. They had heard that the Atlantic liner Arizona was being refitted for the Northern Pacific Oriental trade, but could not vouch for the report. The Sikh passed a large number of sealers a short distance out from Yokohama, but did not speak any of them.

MOVEMENTS OF S. F. FLEET.

Steamship Queen, manned by the crew of the City of Puebla, arrived from San Francisco at 4 o'clock Friday afternoon. She has made a good trip north, bringing for Victoria fifteen cabin and thirteen steerage passengers, and about the usual freight. The Queen will, it is thought, only make this one trip for the Puebla, as the latter, which is receiving her annual overhauling, will resume her regular run when the Queen returns. A smaller number of passengers than usual left for San Francisco on the Umatilla last evening. Those ticketed from here were: W. Costley, A. H. Redington, Miss R. Horton, Mrs. J. A. Brutcher, R. W. Harris and J. T. Scott.

MARINE NOTES.

After making a quick trip to Nanaimo and regular ports of call the steamer Joan returned here Thursday night and on Friday morning went on the Esquimalt marine railroad for repairs, necessitated by her recent mishap in Canoe pass. When exposed to view the only part of the bottom showing injury was the keel. This was considerably damaged and will have to be partially renewed. It is expected the steamer will be on dock until Wednesday.

When opposite the San Pedro with a scow load of stone in tow from Burrard Inlet for the new post office the Tepic's crank shaft gave way on Friday afternoon, and the disabled vessel and barge had to be brought into port by the tug Vancouver. The Tepic is undergoing repairs at the Albion iron works.

Steamer Maude has brought down from the Fraser all the machinery belonging to the wrecked steamer William Irving. It is not known to what purpose the salvage will be placed.

Fares from here to San Francisco on the steamship Queen, which sails on the 18th inst., have been placed at $10 and $5 for cabin and steerage passage, respectively.

To-day is the twenty-ninth anniversary of the wreck of the steamer Labouchere off Point Reyes, while en route to this port.

H. M. Nymphe arrived at San Francisco yesterday and sails thence for Esquimalt this morning.

The Dominion steamer Quadra is to dock at Esquimalt this week for inspection and overhauling.

STILL IN CUSTODY.

An Application to Set John Clark at Liberty Refused and an Appeal to Be Taken.

On Friday the Divisional court will hear an appeal against the decision of Mr. Justice Drake refusing to grant an application discharging John Clark, defendant in Ward v. Clark, from custody. On February 16 Clark was arrested on a "capias ad respondendum" issued at the instance of Robert Ward & Co., Ltd., and in accordance with the statute, $3 50 maintenance money for the week was paid in advance. On February 19 the writ was set aside and a "capias ad satisfaciendum" issued and $3 50 maintenance money paid in advance. There was then $2 left over on the first payment. The next payment was not made until February 28. Mr. W. J. Taylor, for the defendant Clark, contended that as the law required fifty cents a day maintenance to be paid by weekly payments of $3 50 in advance, for the week beginning February 26 the $3 50 had not been paid as required and therefore the defendant was entitled to his discharge. Mr. Justice Drake dismissed the application, hence the appeal.

On Good Friday and Easter Monday trains will leave the V. & S. railway station, Hillside avenue, at 7 a.m. and 1 p.m. Returning, will leave Sidney at 8:15 a.m. and 6:15 p.m. Saturday and Sunday, trains as usual.

THE HORSE FLY MINE.

Continued from Third Page.

is the box. The learned justice rendered his opinion in writing finding that the terms of the lease had been complied with and that we were entitled to a renewal for ten years as provided in the lease. Soon after we were notified by the government that the court's decision was in our favor and the lease would be renewed; but at present writing we have not received our renewal to enable us to go on with our operations for which we have the capital ready.

We have had a few men on the ground who have been there all the fall and winter at a considerable expense, and are anxious to get to work on our ditch and pipe line We are charitable enough to hope, that the five months consumed in investigating this matter is partly due to the change in the ministry and the consequent time necessary to grasp the reins of government, and presume the government will act in due time so that we will not lose another season's work. We have put in a permanent wing dam at a cost of $15,000, and with such repairs as are made necessary by the actions of the jumpers who destroyed a part of the dam, it is barely possible that one or two acres of ground may be uncovered as a result of our labor, so that it may pay wages by ordinary washing.

"Cariboo Miner," says the Horsefly Gold Mining Co. "did not take out a free miner's license," which is a mistake, as the company procured a license before purchasing the property, and it is still in existence unexpired, while the former owner has always been possessed of a free miner's license since holding the property. He then quotes repealed section (117) of the Placer Mining act of 1891, which states that "no ground shall be leased that is available to be worked by individual free miners if occupied by them without their consent." I have shown that this very ground had been held by individual miners from 1878 to 1884 who could not work it at a profit, and who had either abandoned it or sold their rights to the lessee, who has spent thousands of dollars to determine and put it in such a condition that it may be worked at a profit, and now some of the very parties who sold out and got their money for portions of this property are among the petitioners who want it back with all the improvements.

Whenever this property has not been worked there was good cause shown to the gold commissioner, who laid the claim over, and no agent of the lessee ever disposed of tools or machinery connected with the property, or told any miners that the ground had been abandoned. This statement was manufactured out of whole cloth. Any labor done on the property by the jumpers was done without regard to the written protest of the lessee and the notice from the gold commissioner, and also after an injunction issued out of the Supreme court, where a suit for trespass had been instituted immediately, they refused to vacate the leasehold after proper notice.

As to the statement that this lease contains an exorbitant amount of ground, we wish to state that the Horsefly Hydraulic Mining Co., "limited," have on Horsefly 1,800 acres, and no objection was made to that amount being leased to them, by those "injured" so called "miners." The Placer Mining act authorizes the Gold Commissioner to grant to a company ten miles of a stream for mining purposes, when we as the discoverers only have half a mile on the Horsefly, and we do not expect the channel to underlie half of that. It should be borne in mind that the Horsefly Gold Mining Co. is not asking for a new lease, but asking for a compliance with the covenant in the old lease for a renewal of it. In the trial before Justice Dake the crown was represented by Mr. Smith; the petitioners or jumpers were ably represented by Messrs. Eberts & Taylor, and the Horsefly Gold Mining Co. by Mr. Lindley Crease.

From the foregoing statement I think it will be plain to every reader that the jumpers had every opportunity extended to them, and were afforded every means possible by the government to have any imaginary rights or claim adjudicated on at the hearing before Mr. Justice Drake. Have we been sinning or are we sinned against, or is our treatment caused by a conspiracy to wrest from us the property on which we have expended (on the faith of the government title) nearly one hundred thousand dollars in developing and preparing to work the mine on an extensive scale? We are anxious to be permitted to prosecute our work and have our property protected, that we may receive some return for the large amount we have expended in developing the Horsefly country. Respectfully yours;

R. T. WARD.

HENRY PURCELL'S BICENTENARY.

TO THE EDITOR:—Allow me to call your readers' attention to the approaching bicentenary of the death of the greatest of English musicians and the founder of the English school of music, Henry Purcell, who died 21st November, 1695. Henry Purcell has the highest claims to the respect of the English people as the improver of our cathedral music; the originator of English melody as the term is now understood; the establisher of a form of English opera which was universally adopted; the introducer of a new and more effective employment of the orchestra in accompaniment; the man who excelled all others in his accurate, vigorous and energetic setting of English words, and the most original and extraordinary musical genius our country has produced.

The commemoration is being warmly taken up by musicians throughout the country, and all who appreciate the beauties of Purcell's exquisite music are invited to join in the celebrations, which in some cases have already commenced.

The matter is in the hands of the great composer's lineal descendant, Dr. Purcell Taylor, who worthily supports his illustrious ancestry by the eminent position and great wealth he has attained as a diplomatist and as an authority on patents; and also has earned the gratitude of the public by his successful efforts in the cause of free technical education, and by his settlement of the dispute between Chili and the United States, which threatened to culminate in a terrible war.

All who would like to take part in the movement, or who have any of Purcell's music, are warmly invited to communicate with Dr. Purcell Taylor (whose address is 2 Powis Place, Queen Square, London), who is preparing a complete history of the composer's life and times. J. BAKER.

B·B·B CURES DYSPEPSIA SCROFULA CONSTIPATION

THE SECRET

Of the marvelous success of Burdock Blood Bitters lies in its specific curative power over every organ of the body. The Liver, the Blood, the Bowels, the Stomach, the Kidneys, the Skin, the Bladder, in fact, all parts of the human system are regulated, purified, and restored to perfect natural action by this medicine. Thus it CURES all diseases affecting these or other parts of the system, Dyspepsia, Constipation, Bad Blood, Biliousness, Headache, Kidney and Liver Complaint, Obstinate Humors, Old Sores, Scrofula, Rheumatism, Nervous or General Debility, and all irregularities of the system, caused by Bad Blood or disordered action of the Stomach, Bowels, Liver or Kidneys. Thousands of testimonials warrant the assertion that B.B.B. is the BEST SPRING MEDICINE FOR YOUNG OR OLD.

A QUESTION OF FACT.

TO THE EDITOR:—Those who are in the habit of looking at the rosy side of life as is Mr. William Wilson, will be sorry to hear that by latest reports just received from the United States at the office of the Times, on Broad street, the business interests of Canada are in a bad way generally, but that there are some green hills far away, to-wit, the American republic to the south of us, where an unexampled prosperity has been lately enjoyed, so great a prosperity, in fact, that when a comparison is made with this Dominion, the Americans have ever so much the best of it. From these reports it appears that in the past eighteen months, while a storm of financial panic and disaster swept over the whole world, of all the great nations of the earth, the United States was the only one which stood the shock, and, like the giant oak, but bent its branches to the wind, and came out scatheless, while poor Canada with her scanty, needy five millions of people and that awful bug-bear, a protective policy, was well nigh driven to the wall. And it further appears that the reports which from time to time have reached this Dominion from the United States, of such an alarming character, were not only exaggerated but wholly false; and that instead of the United States having been greatly disturbed with financial troubles and beset with difficulties which paralyzed her industries and impoverished her treasury, everything has been lovely over on the other side and plain sailing in smooth water.

Somehow or other well informed men have been led to believe that, within the past eighteen months, there was a mild sort of a financial panic in the United States; that in one week alone over thirty banks suspended payment; that loan and deposit companies by the score and banks innumerable absolutely failed and quit business without paying their depositors or security holders a cent; that factory after factory and workshop after workshop closed its doors; that manufacturing and commercial enterprises went to the wall one after another with monotonous regularity; that millions of workingmen were thrown out of employment and marched through the land shouting for bread; that several great transcontinental railways, and a great many more smaller roads, went into the hands of receivers; that farm produce and cereals became a drug upon the market because the people had not the money wherewith to buy food to eat; that the farmers could not sell their grain because wheat brought less than the cost of production; that the public revenues fell away to such an extent that there was an alarming deficit in the United States treasury, necessitating the floating of loan after loan to keep up the credit of the country; and that, on top of all this and a good deal more, there came over the country a wave of industrial disorder and dispute, which cost the government and the people millions upon millions of money, and a number of lives, before a semblance of order took the place of chaos. How such reports as this gained currency and were believed by sensible people is a mystery, or more correctly speaking, seems a mystery in view of this latest announcement of the new prophet.

Surely Mr. Wilson has mistaken his vocation. He would make a great fortune in the United States if he would go over there and lecture to the people on the fallacies of their beliefs. He could tell those who lost their life savings in the shattered banks that, after all, they did not lose their money—they only thought they did; he could tell the hungry workmen that, after all, they were not hungry, but only thought they were; he could tell the farmers that they were not poor and impoverished, but only imagined it. And so on. There is scarcely a city in the United States in which he could not get great audiences, and if what he says is true, and if the people have been misled into believing that all sorts of dreadful things have happened to them, when in fact none of them have occurred, Mr. Wilson would become famed throughout the land as a soothsayer and prophet, and achieve an honor and glory which in his own poor Canada is denied him.

Victoria, April 11, 1895.

THE POLICE AND THEIR WARDS.

TO THE EDITOR:—There was a great deal of fuss made by the police late last fall because of the invasion by fast women of certain houses on View street, and they were compelled to move hither and thither, and finally have re-occupied the houses from which they fled to View street. These women parade themselves in hacks and at the theatres in a way that is not tolerated in any other city in Canada. The last device of some of these women is to parade through the city streets and park on bicycles in bloomer costume. I do not object to the bloomer bicycle costume for women, but I do think it an outrage on morality and an offence to all respectable women, that the demi-monde should be permitted to advertise themselves as they do. Many ladies will not ride in a public hack because they are chiefly used by fast women. They will now be compelled to refrain from bicycling because these fallen women are, under the protection of the police, allowed to use them in as glaringly attractive a style as possible. The police commissioners and their chief officer are altogether to blame in this matter. PATERFAMILIAS.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. THE THIRD GREAT

AUCTION SALE

OF THE ESTATE KNOWN AS THE

COL. MOODY PROPERTY.

Under instructions from J. R. FOORD, Esq., of Rochester, England, I will sell by Public Auction, at very low prices, the third instalment of this valuable Estate,

On Wednesday Evening, April 24, 1895

This Sale will include Lots in the City of New Westminster, and Choice Acreage Property in the neighborhood of Brunette River and Pitt River, and upon Lulu Island, in the District of New Westminster, as follows:

CITY PROPERTY.

Seventy three (73) Subdivisions of Lots 5 and 6, Block 8, and Lot 6, Block 1 Suburban.

SUBURBAN PROPERTY.

Lots 1, 2, 3, 4, 5, 6, 7, 27 and 28, Block I. Lots 1, 2, 27 and 28, Block II. Lots 1, 2, 27 and 28, Block III. Lots 1, 2, 27 and 28, Block IV. Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, Block IX. Lots 1, 2, 3, 4, 5, 6, 70, 71, 72, 73, 74, 75, Block XV. All in the Plot of Rossfordton, near the Brunette River.

43 2-acre Lots on the Pitt River Road, Subdivisions of Lots 1, 16 and 45, Group I.

25 2½-acre Lots on the Austin Road, Subdivisions of Lots 1, 3, 108 and 45, Group I.

14 2-acre Lots near Fraser River, Subdivision of Lot 16, Group I.

8 10-acre Lots on Lulu Island, parts of Sections 15 and 16, B. 3, N.R., 6 W., Group 1.

A number of 10-acre Lots, Subdivision of Lots 100 and 101, Group I., on the North Road to Port Moody.

A number of 5-acre Lots, Subdivision of Lots 5 and 6, Group I., also on the North Road to Port Moody.

The lands herein enumerated have been locked up for many years, and this sale will afford a rare opportunity to buyers, as the reserve prices will be very low, namely: FORTY PER CENT. BELOW the final 1894 assessed value of lots in Burnaby, Coquitlam and Richmond Municipalities, and some of the lots in New Westminster City; and SIXTY PER CENT. BELOW the final assessed value of other lots in the City of New Westminster.

The lots in the eastern part of the City are eminently adapted for manufacturing purposes, many of them having a deep water frontage on the Fraser River, and for sawmill and cannery purposes cannot be surpassed. The lots in the District have been so divided and arranged as to give easy access, and every lot has a road frontage.

The soil is well adapted for the cultivation of fruit and for mixed farming, and for suburban residence is unequalled.

This property should meet with a ready sale as it was selected in the early days of the Colony, and is, so to speak, the cream of this part of the District

Parties not being in a position to attend the sale can communicate with the Auctioneer, and so secure their lots in this way without any extra charge.

TERMS—Ten per cent. cash as deposit; Ninety per cent. by six years' mortgage with interest at six per cent. per annum, to to be paid off, namely: Fifteen per cent. to be paid off within 1 year from date of sale. Fifteen per cent. to be paid off within 2 years from date of sale; Fifteen per cent. to be paid off within 3 years from date of sale; Fifteen per cent. to be paid off within 4 years from date of sale; Fifteen per cent. to be paid off within 5 years from date of sale; Fifteen per cent. to be paid off within 6 years from date of sale.

The sale will take place at 7.30 o'clock p. m., in the City of New Westminster, in the Powell Block, Columbia Street.

THE RISEN SAVIOUR.

Flowers and Songs of Joy Mark the Great Anniversary of Christ's Church.

Arrangements for Easter in Victoria's Temples of Worship—Rev. Mr. Murison's Farewell.

Easter Sunday, with its hallowed memories, its wealth of beautiful and emblematic flowers, and its special services in the churches, is here again. On account of the festival falling so late in the season the decorations are unusually extensive, and it has been possible to utilize the flowers of the wildwood to the fullest advantage. At Christ Church Cathedral a company of ladies were busy all yesterday afternoon arranging the flowers, which go to make a most beautiful display; the chancel, hood screen and super-altar are simply buried in rich blooms, the colors blending to give most striking and artistic effects. White flowers naturally predominate, the abundance of calla lilies being particularly noticeable. The font has also received attention and presents a most attractive appearance. There are several other minor arrangements which contribute towards making the cathedral decorations worthy the great event they commemorate. Worshippers at St. James church will also find that a wondrous transformation has been wrought in this pretty little edifice, as a result of the labor of the ladies. The main parts of the church have been carefully decorated, a prominent feature being several large floral crosses. At St. Barnabas', besides the usual Easter flowers, which are many and carefully arranged, the sacristy and sides of the chancel have, through the kindness of a parishioner, been permanently decorated and beautified after Italian ecclesiastical art. They will be exposed for the first time at the early morning celebration. At St. James' the ladies have, as usual, made a special effort, and the church presents a most attractive appearance. St. Andrew's (R C.) cathedral has received attention from the ladies of the altar society, who have concentrated their efforts upon the altar. The evening effect made by the flowers and wax tapers is pretty and effective in the extreme. The Metropolitan Methodist church and St. Andrew's and First Presbyterian churches have been beautified by the introduction of large quantities of choice flowers, provided and arranged by the ladies, and the decorations in the other churches, while of less extensive character, are at the same time appropriate and in good taste.

The following are the services for Easter in detail:

Christ Church cathedral, Church Hill—Easter Day: Holy Communion 7 and 8 a.m.; Matins, Holy Communion and sermon, 11 a.m.; children's service and procession, 3 p.m.; festal evensong and sermon, 7 p.m. The special music for the day will be as hereunder:

LIKE A SOLID BALL.

The Horrors of Terrible Indigestion.

The Awful Sufferings Can Only Be Banished by Paine's Celery Compound.

Mr. Pethick, of Bowmanville, Ont., Tried all the Advertised Sarsaparillas and Pills Without Any Good Results.

WAS CURED BY NATURE'S MEDICINE.

Are you a sufferer from indigestion, one of the most common diseases of modern times? If you are, be assured this awful trouble demands instant attention, because it is one of the most obstinate and lingering of diseases.

The symptoms are, coated tongue, putrid or bitter taste in the mouth, want or appetite, headache and heaviness in the head, dullness, constipation, inactive bowels, nausea, and frequently vomiting of food and bile.

As a perfect cure physicians now prescribe and recommend Paine's Celery Compound; the action of this noted medicine is prompt and decisive. It never fails to regulate the action of the digestive organs, and it always restores to perfect health. Numberless testimonials have been sent in from the people of Canada, proving clearly that no other medicine in the world can so thoroughly meet the tortures of indigestion and dyspepsia, as Paine's Celery Compound.

Mr. Thos. Pethick, of Bowmanville, Ont., writes for the benefit of suffering men and women; he says:—

"In the interests of sick and diseased people I have decided to testify in favor of Paine's Celery Compound. For three years I suffered from indigestion and all the horrors it usually brings. Day after day my food lay like a solid ball on my stomach and I could not get relief. I tried all the sarsaparillas and pills advertised without any good results. A friend advised me to use Paine's Celery Compound. This was indeed the medicine for my case, as seven bottles perfectly cured me. I am now able to eat well, sleep well and attend to my work. I strongly advise all to use Paine's Celery Compound, as it is sure to cure."

COVERED WITH PIMPLES.

AN ANXIOUS MAN.

The Disease Disappears in Three Weeks by the Use of B.B.B.—Letter from Manitoba Fully Describing It.

DEAR SIRS,—During the winter of 1892 93, I was covered with Pimples on the inside of my right leg between the knee and the ankle. As I never had anything of the kind before I was anxious about it, and sought medical advice, but getting no relief from the doctor I tried a bottle of B.B.B., applying some of it to my leg as well as using it internally, and to my surprise the nasty disease, whatever it was, disappeared within three weeks, and I am thankful to say it has never re-appeared.

No. 144.

CERTIFICATE OF REGISTRATION OF A FOREIGN COMPANY.

"COMPANIES' ACT," PART IV.

"The Cariboo Gold Fields, Limited" (Foreign).

Registered the 26th day of March, 1895.

I HEREBY CERTIFY that I have this day registered "The Cariboo Gold Fields, Limited" (Foreign), under the "Companies' Act, Part IV., Registration of Foreign Companies," and amending acts.

The head office of the said Company is situated in England.

The objects for which the Company is established are:

(1.) To adopt and carry into effect, with or without modification, an agreement dated the 21st day of November, 1894, and made between the Whittier Gold Concessions, Limited, of the one part, and William Wigzell Eilwood, on behalf of the Company, of the other part:

(2.) To acquire from any Sovereign, State or authority, supreme, local or otherwise, any concessions, grants, decrees, rights or privileges whatsoever which may seem to the Company capable of being turned to account, and to work, develop, carry out, exercise, and turn to account the same:

(3.) To purchase or otherwise acquire, sell, exchange, deal in, and turn to account property and rights of all kinds, and in particular lands, buildings, mines, mining rights, water rights, concessions, patents, licenses, and business concerns and undertakings:

(4.) To carry on the business of miners and metallurgists, and in particular to search for, win, get, mine, quarry, crush, smelt, wash, roast, dress, refine, prepare for market, buy, sell, and deal in ores, minerals, and metallic substances and compounds of all kinds:

(5.) To purchase or otherwise acquire and undertake all or any part of the business, property, rights and liabilities of any person or company carrying on any business which this Company is authorized to carry on, or possessed of property or rights suitable for the purpose of this Company:

(6.) To construct, carry out and maintain, work, manage or control works and conveniences of all kinds, both public and private, in particular roads, ditches, flumes, ground-sluices, tunnels, shafts, stamping or smelting works, warehouses, electric and other lighting works, stores and other buildings:

(7.) To purchase or hire wagons, engines and other plant and machinery of every description which may, directly or indirectly, be conducive to any of the Company's objects, and to contribute to and take part in the construction, working, maintaining and managing of any such works and conveniences:

(8.) To enter into partership, or into any arrangement for sharing profits, union of interests, co-operation, amalgamation, or otherwise, with any person or company carrying on, or about to carry on or engage in, any business which this Company is autnorized to carry on, or any business or transaction which may seem capable of being carried on or conducted so as, directly or indirectly, to benefit this Company, with power to accept shares (either wholly or partly paid up) or debentures in other companies as consideration for the above, and to hold, sell or otherwise dispose of such shares and debentures, as may be deemed fit:

(9.) To receive money on deposit, at interest or otherwise, and to lend money, and in particular to customers of and persons having dealings with the Company, and to guarantee the performance of contracts by members of or persons having dealings with the Company,

(10.) To borrow, or raise, or secure the payment of money in such manner as the Company shall think fit, and in particular by the issue of debentures or debenture stock, perpetual or otherwise, charged upon all or any of the Company's property (both present and future, including its uncalled capital:

(11.) To draw, make, accept, indorse, discount, execute and issue promissory notes, bills of exchange, bills of lading, warrants, debentures, and other negotiable or transferable instruments:

(12.) To invest and deal with the moneys of the Company not immediately required in or upon such securities, and in such manner as may from time to time be determined:

(13.) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any other company having objects altogether or in part similar to those of this Company, and upon any such sale to divide the net produce thereof, or of part thereof, whether in cash, shares, or debentures, as the Company may determine, ratably amongst the members of the Company:

(14.) To exercise and obtain the benefit of the powers contained in and conferred by "The Companies' Seals Act, 1861":

(15.) To do all or any of the above things in any part of the world, and as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others:

(16.) To do all such things as are incidental or conducive to the attainment of the above objects.

The capital stock of the said Company is one hundred thousand pounds sterling, divided into one hundred thousand shares of one pound each.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 26th day of March, 1895.

In The Spring

Nearly everybody needs a good medicine. The impurities which have accumulated in the blood during the cold months must be expelled, or when the mild days come, and the effect of bracing air is lost, the body is liable to be overcome by debility or some serious disease. The remarkable success achieved by Hood's Sarsaparilla, and the many words of praise it has received, make it worthy your confidence. We ask you to give this medicine a trial. We are sure it will do you good. Read the testimonials published in behalf of Hood's Sarsaparilla, all from reliable, grateful people. They tell the story.

EXCLUSIVE STATESMEN.

Red Tape Surrounds the Sacred Person of the Bay State Legislator.

When the member of years before 1889 heard of the new rules of the house, by which he could not be admitted to the floor without sending a card to the speaker, he was filled with contempt about the new fangled exclusiveness of the members who had succeeded him. In his time any one was admitted to the floor of the house and occupied seats of members. The rear of the hall used to be lined with lobbyists, and nobody kicked.

But even the new rules of 1889 were mild compared with the red tape it now requires to get on the floor, into one of the luxurious new chairs, which the mob in the men's public gallery can never hope to attain to. In the first place, the visitor to the hall is stopped by the sentinel at the outer gate and told that he must send in a card to the member he wishes to see. A card to be filled out by him is furnished as follows:

Mr.....
desires to see
Representative.....
of.....
at the door.

The sentinel at the outer gate passes this card in to the inner guard, who, in blue uniform and bright brass buttons, is stationed in the space between the outer ramparts and the inner breastworks. This inner guard takes the card to the member whose presence is desired, who comes out to see the man, if he chooses, or, if he is a man he does not wish to see, the caller may cool his heels on the handsome marble corridor. But if the member goes out and wishes to invite his friend in he must take another card, of which the following is a sample:

Representative.....
of.....
desires to invite
Mr.....
to the floor of the house of representatives.

This he must fill out with the name of his friend and take in person to the speaker, leaving his friend outside while the red tape is being unwound. If the speaker consents, then he may usher his friend in and give him a seat in one of the envied places.—Boston Cor. Springfield Republican.

CHOLLY AND THE INCOME TAX.

The Idea Is Odious to the Dudes, and They Can't "Make Out" the Papers.

The income tax fellow has been around to see me.

I was out. So he left his card in the shape of a huge printed document as big as a copy of The Recorder.

It is covered with affidavits, and I have signed them all.

I believe I've sworn that I'm worth $4,000 a year; that I'm not; that I'm a charge on the county, and that I am as rich as Jack Astor.

It's the most muddled up paper I ever tried to read and understand.

I believe that I am what is called a person of ordinary intelligence, yet I can't make the thing out at all.

What show will the chappies have who don't come up to my high order of intellect?

There is some frightful penalty, "with boiling oil in it," provided for any one who distorts the truth in making his returns, but how to tell the truth is what bothers me.

The whole idea of an income tax is odious to us dudes.

It makes us begin to think how we live anyhow, when the whole joy of life is in not knowing anything about such things.

"I suppose I've got money," said Dottie Onativia yesterday, looking over his high collar at his varnished boots and smart clothes, "but I'll be hanged if I know how much. I will ask my man if he has any idea."

But "his man" didn't know and reminded Dottie that his wages for the last few months had not, etc.—Cholly Knickerbocker in New York Recorder.

Get the Best; they are Only Ten Cents.

The only pure, harmless and unadulterated dyes for home use, are the Diamond Dyes.

Each package colors from one to eight pounds of goods for ten cents.

Each color of Diamond Dyes will give from three to eight beautiful and handsome shades.

The full and explicit directions upon each package are so simple that even a child can understand them, and easily match any desired shade.

Diamond Dyes make old things look like new. You can color dresses, coats, cloaks, wraps, men's and boys suits, shawls, scarfs, hose, ribbons, and a host of other goods, any desired shade.

Diamond Dyes give the best and strongest colors, and you are always sure of good results when you use them.

When you go to a druggist or dealer to buy dyes, do not accept any but the "Diamond," they alone are guaranteed.

THREE MEN FROM THE WEST.

Millionaires Who Will Try to Enjoy Their Riches In the Metropolis.

Three large western cities—Chicago, Denver and Helena—have recently lost three citizens to New York, citizens whose combined fortunes are estimated to be quite $100,000,000. The three men who have already bought property in this city are Charles T. Yerkes, the Chicago cable king; W. A. Clarke, the silver mine Crœsus of Montana, and D. H. Moffat, the owner of the famous Creede mine of Colorado.

These three money monarchs may be expected to do something startling in the building way. Mr. Yerkes has already set the pace for the other rich citizens coming here from the west. He has practically completed his $100,000 palace on Fifth avenue, at the southeast corner of Sixty-eighth street. It has a frontal of 51 feet on Fifth avenue and 125 feet on Sixty-eighth street. In the rear there is an addition 100 feet long and 25 feet wide, in which will be hung Mr. Yerkes' famous collection of old masters, valued at over $2,000,000. It is said that this will be the richest gallery in this country. The mansion will be five stories high, of pure classical design and built of very dark American brownstone. The carving on the exterior will cost a good sized fortune. The stoop to the Yerkes mansion will be one solid block of brownstone that will cost $20,000.

Another one of the new citizens of New York, Mr. David H. Moffat, whose fortune is variously estimated from $20,000,000 to $50,000,000, has had a varied career.

When a boy, he was a messenger in the New York Exchange bank, and he now owns several banks in Colorado, mines, stocks and gold galore. He practically owns all of the Creede mine. He took hold of the property which Creede discovered and built a railroad to it. He developed the mines so thoroughly that Creede is one of the largest shipping points in the United States.

He left New York for Iowa a score or more years ago to take a place as teller in a bank in Des Moines. While there he attracted the attention of a capitalist who wanted to start a bank in Omaha.

Mr. Moffat was made the cashier of that bank. He was in Omaha when the Pike's peak excitement began, and at that time he went to Colorado. He speculated in groceries and other staples which were needed for shipment to the mines, and he soon owned a bank.

W. A. Clarke, the third money king from the west who will settle down in New York to enjoy his millions, has purchased from School Commissioner Guggenheimer the northeast corner of Fifth avenue and Seventy-seventh street, nine blocks away from Mr. Yerkes, for $225,000. The lot has a 50 foot front on Fifth avenue and runs back 150 feet on Seventh-seventh street. The Fifth avenue frontage of Mr. Clarke's lot is 11 feet less than Mr. Yerkes', but it is 25 feet longer on the side street.

Mr. Guggenheimer bought it about a year ago for $180,000, so he has made $45,000 by the transaction. It is Mr. Clarke's intention to build a mansion that will surpass any in New York. His fortune is estimated at $30,000,000. He owns three gold mines in the neighborhood of Butte City, Mon., and a couple of paying silver mines and is president of several railroads. He is president of a bank in Denver and one in Butte City.

Despite his riches he has been twice prevented from being United States senator. Mr. Clarke arrived in Montana 30 years ago at the head of a mule train with a pick over his shoulder. He opened a general store at Butte City and then bought mining claims, which he and his wife worked with their own hands. He is so proud of the hard work he did in those days that the checks of the banks of which he is president bear pictures of himself in his rough miner's dress.—New York World.

Excellent Fritters.

Almost any good sweet raised biscuit dough may be used. Let the dough rise till very light. Then roll it out until it is an eighth of an inch thick. Cut it into circles with a patty cutter 2 inches in diameter. Heap a teaspoonful of raspberry jam in the center of half the circles. Moisten the edges of the other circles with water and put them carefully over these which have been heaped with jam, pressing the edges very carefully together. Fry the fritters at once in hot fat, dredge them with sugar and serve.

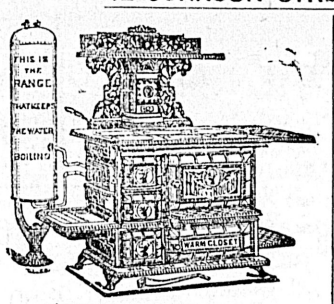

Bathing With Alcohol.

If there is occasion to use alcohol for bathing, place the utensil containing it in a dish of hot water, on no account over a lamp or fire, for, as Good Housekeeping explains, serious results sometimes attend such a mistake. To wring out cloths quite hot without burning the hands, place the flannel in the hot preparation and have a large piece of dry flannel at hand to wrap around it. It can then be wrung dry and hard, and it will keep hot.

GRATEFUL—COMFORTING.
EPPS'S COCOA
BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
